Welcome to Oklahoma Complete Health's SoonerSelect Program

This handbook will be your guide to the full range of Medicaid health care services available to you. If you have questions about the information in your welcome packet, this handbook, or your new health plan, call Member Services at **1-833-752-1664** (TTY: **711**) or visit our website at **OklahomaCompleteHealth.com**. We can also help you make an appointment with your doctor and tell you more about the services you can get with your new health plan.

How SoonerSelect Works

The Plan, Our Providers and You

Many people get their health benefits through programs like SoonerSelect, which works like a central home for your health. SoonerSelect helps coordinate and manage all your health care needs.

Oklahoma Complete Health has a contract with the Oklahoma Health Care Authority (OHCA) to meet the health care needs of people with Oklahoma Medicaid. In turn, we partner with a group of health care providers to help us meet your needs. These providers (doctors, therapists, specialists, hospitals, home care providers and other health care facilities) make up our provider network. You will find a list of participating providers in our provider directory. You can visit our website at **OklahomaCompleteHealth.com** to find the provider directory online. This tool will have the most up-to-date information about our provider network, such as:

- Provider names, addresses, and phone numbers.
- The provider's sex and spoken language(s).
- Whether the provider is taking new patients.
- Professional qualifications, such as where the provider went to school and what certifications they have.

For more information about a provider, call Member Services at **1-833-752-1664** (TTY: **711**). You can also call Member Services at **1-833-752-1664** (TTY: **711**) to get a free copy of the provider directory.

When you join Oklahoma Complete Health, our providers are here to support you. Most of the time, that person will be your primary care provider (PCP). The PCP is the medical provider who takes care of and coordinates all your health needs, including referrals and prior authorizations. If you need to have a test, see a specialist or go into the hospital, your PCP can help arrange it. You can choose any PCP in our network. Your PCP can be a:

- Family general practitioner.
- Internist.
- Obstetrician / gynecologist (OB/GYN).
- Specialist who performs PCP functions.
- Nurse practitioner.

To make an appointment with your PCP, call your PCP's office. If you need help making an appointment, please call Oklahoma Complete Health Member Services at **1-833-752-1664** (TTY: **711**). If you need help getting to your appointment, please call **1-877-718-4212** (TTY: **711**).

If you need to speak to your PCP after hours or weekends, call and leave a message with information on how you can be reached. Your PCP will get back to you as soon as possible. Even though your PCP is your main source for health care, in some cases, you can go to certain doctors for some services without checking with your PCP. See page 10 for details.

How to Use This Handbook

This handbook will tell you how Oklahoma Complete Health will work. This handbook is your guide to health and wellness services. It tells you the steps to take to make the plan work for you.

The first several pages will tell you what you need to know right away. The rest of the handbook can wait until you need it. Use it for reference or check it out a bit at a time.

When you have a question, check this handbook, ask your PCP or call Member Services at **1-833-752-1664** (TTY: **711**). You can also visit our website at **OklahomaCompleteHealth.com**.

PART I: FIRST THINGS YOU SHOULD KNOW

How to Choose Your PCP

Your primary care provider (PCP) is a doctor, nurse practitioner, physician assistant, or another type of provider who will care for your health, coordinate your needs, and help you get referrals for specialized services if you need them. There are lots of types of health care providers. Yours may be a general practitioner or family medicine, internal medicine, pediatrics or Indian Health Care Provider. When you enroll in Oklahoma Complete Health, you will have an opportunity to choose your own PCP. To choose your PCP, call Member Services at **1-833-752-1664** (TTY: **711**). If you do not select a PCP, we will choose one for you. If we choose a provider for you, we will try to choose a provider you have seen before. Any provider we choose for you will be close to your home. (See “How to Change Your PCP” to learn how you can change your PCP.)

When deciding on a PCP, you may want to find a PCP who:

- You have seen before;
- Understands your health needs;
- Is taking new patients;
- Can serve you in your language; and
- Is easy to get to.

Each family member enrolled in Oklahoma Complete Health can have a different PCP, or you can choose one PCP to take care of the whole family. A pediatrician treats children from birth through 18. Family practice doctors treat the whole family. Internal medicine doctors treat adults ages 19 and older. Call Member Services at **1-833-752-1664** (TTY: **711**) to get help with choosing a PCP who is right for you and your family.

You can find the list of all the doctors, clinics, hospitals, labs, and others who partner with Oklahoma Complete Health in our provider directory. You can visit our website at **OklahomaCompleteHealth.com** to look at the provider directory online. You can also call Member Services at **1-833-752-1664** (TTY: **711**) to get a copy of the provider directory.

Women can choose an OB/GYN to serve as their PCP but do not have to. Women do not need a PCP referral to see an OB/GYN doctor or another provider who offers women’s health care services.

Women can get routine check-ups, follow-up care if needed, and regular care during pregnancy.

If you have a complex health condition or a special health care need, you may be able to choose a specialist to act as your PCP. To pick a specialist as your PCP, call Member Services at **1-833-752-1664** (TTY: **711**).

If your provider leaves Oklahoma Complete Health, we will tell you within 15 days from when we know about this. If the provider who leaves Oklahoma Complete Health is your PCP, we will contact you to help you choose another PCP. If you are currently getting treatment for a serious or chronic medical condition, you may keep getting that treatment until it is finished or for up to 90 calendar days, whichever is less. If you are pregnant and in your second or third trimester, you may continue to get care through the postpartum period, which lasts for about six weeks after childbirth. To choose a new PCP, visit our Member Portal at **Member.OklahomaCompleteHealth.com**.

If you are an American Indian/Alaska Native individual, you may choose an Indian Health Care Provider as your PCP, but you do not have to.

You can choose any PCP in our network. Your PCP can be a:

- Family general practitioner.
- Internist.
- Obstetrician / gynecologist (OB/GYN).
- Specialist who performs PCP functions.
- Nurse practitioner.

How to Change Your PCP

When you enroll in Oklahoma Complete Health, you can select a primary care provider (PCP) from our network after your benefits with Oklahoma Complete Health begin. If you do not pick a PCP, we will choose one for you. Whether you choose a PCP for yourself or Oklahoma Complete Health chooses a PCP for you, you can change your PCP within the first month and that change will become effective the next business day. After that, you can change your PCP any time and the change will become effective the next business day. You do not have to give us a reason for the change. If you would like to change your PCP, you can do so by calling Member Services at **1-833-752-1664** (TTY: **711**). You can also change your PCP by visiting your secure member portal at **Member.OklahomaCompleteHealth.com**.

How to Get Regular Health Care

Regular health care means exams, regular check-ups, shots, or other treatments to keep you well, advice when you need it, and referrals to the hospital or specialists when you need them. It means you and your primary care provider (PCP) work together to keep you well or to see that you get the care you need.

Day or night, your PCP is only a phone call away. Be sure to call your PCP if you have a medical question or concern. If you call after hours or on weekends, leave a message and information on how you can be reached. Your PCP will call you back as quickly as possible. Remember, your PCP knows you and knows how your health plan works.

Your PCP will take care of most of your health care needs, but you must have an appointment to see your PCP. If you cannot keep an appointment, it is important to call to let your PCP know as soon as you know.

Making your first regular health care appointment. As soon as you choose or are assigned a PCP, call to make a first appointment. There are several things you can do to help your PCP get to know you and your health care needs. Your PCP will need to know as much about your medical history as possible. Make a list of your medical history, any problems you have now, and the questions you want to ask your PCP. Bring any medications and supplements that you are taking with you to the visit. In most cases, your first visit should be within 3 months of you joining the Oklahoma Complete Health.

If you need care before your first appointment, call your PCP's office to explain your concern. Your PCP will give you an earlier appointment. You should still keep the first appointment to talk about your medical history and ask questions.

If you need care before you choose or are assigned a PCP, call Member Services at **1-833-752-1664** (TTY: **711**) for help.

It is important to Oklahoma Complete Health that you can visit a doctor within a reasonable amount of time, depending on what the appointment is for. When you call for an appointment, use the appointment guide below to know how long you can expect to wait to be seen.

If you are having trouble getting the care you need within the time limits describe above, call Member Services at **1-833-752-1664** (TTY: **711**).

How to Get Specialty Care — Referrals

If you need specialized care that your primary care provider (PCP) cannot give, you can see a specialist who can. A specialist is a doctor who is trained and practices in a specific area of medicine (like a cardiologist or a surgeon).

You do not need a referral to get an examination from an in-network specialist – we will still pay for your care. However, we encourage you to talk about your health care needs with your PCP before you see a specialist because your PCP can help guide you to the right kind of provider. There are also some treatments and services that your PCP must ask Oklahoma Complete Health to approve before you can get them. Your PCP will be able to tell you what they are. You can also call Member Services at **1-833-752-1664** (TTY: **711**) if you have questions about whether you need a referral for a particular service.

Talk with your PCP or call Member Services at **1-833-752-1664** (TTY: **711**) to be sure you know how referrals work. If you think a specialist does not meet your needs, talk with your PCP. Your PCP can help you if you need to see a different specialist.

If you have trouble getting a referral you think you need, contact Member Services at **1-833-752-1664** (TTY: **711**).

If Oklahoma Complete Health does not have a specialist in our provider network who can give you the care you need, we will refer you to a specialist outside our plan. This is called an out-of-network referral. Your PCP or another network provider must ask Oklahoma Complete Health for approval before you can get an out-of-network referral.

When Oklahoma Complete Health gets a request for services by an out-of-network provider, we will consider the unique healthcare needs of the member. Decisions for most non-urgent prior authorization requests are made within 72 hours. However, we can ask for up to an extra 14 calendar days to decide. Decisions for urgent prior authorizations will be made within 24 hours or one calendar day. For information about your request, please call Member Services at **1-833-752-1664** (TTY: **711**).

It is important you get a referral before seeing an out-of-network provider. If you do not, there may be a delay in services and you may be responsible for paying for the services out of pocket.

Sometimes we may not approve an out-of-network referral because we have a provider in Oklahoma Complete Health's network who can treat you. If you do not agree with our decision, you can appeal our decision. See page 46 to find out how.

Sometimes, we may not approve an out-of-network referral for a specific treatment because you asked for care that is not very different from what you can get from an Oklahoma Complete Health provider. If you do not agree with our decision, you can appeal our decision. See page 46 to find out how.

If you have a complex health condition or a special health care need, you may be able to choose a specialist to act as your PCP. Member Services is ready to help you find a specialist to manage your specific needs. For help choosing a specialist as your PCP, please call Member Services at **1-833-752-1664** (TTY: **711**).

Out-of-Network Providers

A participating provider is a physician or other provider who is contracted with or employed by Oklahoma Complete Health to deliver services under the SoonerSelect program. A non-participating provider is a physician or other provider who has not contracted with or is not employed by Oklahoma Complete Health to deliver services under the SoonerSelect program. If we do not have a specialist in our provider network who can give you the care you need, we will get you the care you need from a specialist outside our plan, or an out-of-network provider. For help and more information about getting services from an out-of-network provider, talk to your primary care provider or call Member Services at **1-833-752-1664** (TTY: **711**).

You can receive family planning services (birth control) from a doctor that is not an Oklahoma Complete Health doctor. You do not have to get a referral from your PCP, but you must visit an Oklahoma Medicaid provider. If you are AI/AN, you may receive services from any Indian Healthcare Provider (IHCP), even if the IHCP is out of network.

Get These Services from Oklahoma Complete Health Without a Referral

You do not need a referral to get these services:

- Primary care;
- An examination or consultation with a specialist;
- Behavioral health services;
- Substance use disorder treatment;
- Vision services;
- Emergency services;
- Well-child checkups/EPSTD;
- Family planning services and supplies;
- Prenatal care;
- Department of health providers, including mobile clinics; and
- Services provided by IHCPs to AI/AN health plan members.

Emergencies

If you believe you have an emergency, call **911** or go to the nearest emergency room. If you believe you have a mental health emergency, call **988**.

You do not need approval from your plan or your primary care provider (PCP) before getting emergency care, and you are not required to use our hospitals or doctors.

If you're not sure, call your PCP at any time, day or night. Tell the person you speak with what is happening. Your PCP's team will:

- Tell you what to do at home;
- Tell you to come to the PCP's office; or
- Tell you to go to the nearest urgent care clinic or emergency room.

If you are out of the area when you have an emergency:

- Go to the nearest emergency room.

Remember: Use the emergency room only if you have an emergency. If you have questions, call your PCP or Oklahoma Complete Health Member Services at **1-833-752-1664** (TTY: **711**).

You are always covered for emergencies. An emergency medical condition is a situation in which your life could be threatened, or you could be hurt permanently, if you don't get care right away. Some examples of an emergency are:

- A heart attack or severe chest pain;
- Bleeding that won't stop;
- A bad burn;
- Broken bones;
- Trouble breathing, convulsions or loss of consciousness;
- When you feel you might hurt yourself or others;
- If you are pregnant and have signs like pain, bleeding, fever or vomiting; or
- Drug overdose.

Some examples of non-emergencies are colds, upset stomach or minor cuts and bruises. Non-emergencies may also be family issues or a break-up. These may feel like an emergency, but they are not a reason to go to the emergency room, unless you are in immediate danger of harm.

Urgent Care

You may have an injury or an illness that is not an emergency but still needs prompt care and attention. This could be:

- A child with an earache who wakes up in the middle of the night and won't stop crying;
- Flu symptoms;
- If you need stitches;
- A sprained ankle; or
- A bad splinter you cannot remove.

You can walk into an urgent care clinic to get care the same day or make an appointment for the next day. Whether you are at home or away, call your primary care provider any time, day or night. If you cannot

reach your PCP, call Member Services at **1-833-752-1664** (TTY: **711**). Tell the person who answers what is happening. They will tell you what to do.

Care Outside Oklahoma

In some cases, Oklahoma Complete Health may pay for health care services you get from a provider located just beyond the Oklahoma border or in another state. Your PCP and Oklahoma Complete Health can give you more information about which providers and services are covered outside of Oklahoma by your health plan, and how you can get them if needed. If you need medically necessary emergency care while traveling anywhere within the United States and its territories, Oklahoma Complete Health will pay for your care. If you cannot get the care you need in Oklahoma, our plan will make sure you get these services from out-of-state providers. Oklahoma Complete Health will make such referrals as needed.

Your health plan will not pay for care received outside of the United States and its territories.

If you have any questions about getting care outside of Oklahoma or the United States, talk with your PCP or call Member Services at **1-833-752-1664** (TTY: **711**).

PART II: YOUR BENEFITS

The rest of this handbook is for your information when you need it. It lists covered and non-covered services. If you are having problems with your health plan, the handbook tells you what to do. The handbook has other information you may find useful. Keep it handy for when you need it.

How You Know if You are an Expansion Adult or a Non-Expansion Adult

Non-expansion adults are individuals who qualify for Oklahoma's Medicaid program and meet eligibility requirements such as those who are eligible for Medicare; pregnant women; or needy caretakers of dependents under age 19 who meet the income requirements listed at <https://oklahoma.gov/ohca/individuals/mysooner/apply-for-sooner/eligibility/income-guidelines.html>.

Expansion adults are individuals who meet income requirements; are ages 19 to 64; and determined eligible for Medicaid, but do not meet requirements for aged, blind or disabled; breast and cervical cancer; or Medicare. Eligible income means someone earns at or below 138% of the federal poverty level. See the income guidelines at <https://oklahoma.gov/ohca/individuals/mysooner/apply-for-sooner/eligibility/income-guidelines.html>.

What pharmacy benefits are covered?

Oklahoma Complete Health covers certain prescription drugs and OTC drugs when prescribed by an Oklahoma Complete Health provider. The pharmacy program does not cover all drugs. Some drugs need prior authorization and may have limits based on age, dosage, or maximum quantities.

Which drugs are covered?

The Preferred Drug List (PDL) is a list of drugs covered by Oklahoma Complete Health. Oklahoma Complete Health works with the State of Oklahoma to ensure that medications used to treat many conditions and diseases are covered. The PDL applies to drugs you get at retail or mail-order pharmacies.

Oklahoma Complete Health's Pharmacy and Therapeutics Committees check the PDL often to make sure it has the right drugs at the best prices. We tell our members and providers about annual updates and major changes by direct mail (e.g. fax, email, mail) as needed. To view the PDL, visit the Manuals and Forms page at **OklahomaCompleteHealth.com**.

You can get a paper copy of the PDL by calling Member Services at **1-833-752-1664** (TTY: **711**).

Specialty Drugs

A specialty drug is a prescription drug that requires special handling, administration, or monitoring. These are usually ordered through a specialty pharmacy.

How do I get medications?

You can have your prescriptions filled at an Oklahoma Complete Health network pharmacy. At the pharmacy, you will need to give the pharmacist your prescription from an Oklahoma Complete Health prescriber and your Oklahoma Complete Health ID card. If you need help finding a pharmacy near you, call us at **1-833-752-1664** (TTY: **711**).

Can I get a prescription with more than a 30-day supply?

As a general rule, Oklahoma Complete Health members get a 30-day supply of their medications. However, members can get a 90-day supply of many *maintenance medications* (or medications you take every day). You can find a list of maintenance medications for which you can get a 90-day supply on our website at **OklahomaCompleteHealth.com**.

Where can I get my prescription filled?

To find a pharmacy that is in the Oklahoma Complete Health network, you can use the "Find a Doctor" tool at **OklahomaCompleteHealth.com**. Type in your city or ZIP code, then click "Update." Choose "Other" and type the name of your pharmacy. You can also pick the pharmacy type in the "Select Specialty" area. Only those pharmacies in the Oklahoma Complete Health network are listed.

Over the Counter (OTC)

Up to \$30 per household per quarter for cold, cough, allergy, vitamins, supplements, ophthalmic/otic preparations, pain relievers, gastrointestinal products, first aid care, hygiene products, insect spray, oral care products, and skin care.

Generic Substitution

Generic drugs are drugs that are not sold under a company's brand name. However, generic drugs have the same active ingredients as brand name versions. The FDA requires generic drugs to be safe and to work the same as brand name drugs. Your provider should consider a generic drug before giving you a brand name drug.

That’s because the generic version is usually less expensive, even though the drug works the same way. In some cases, a brand name drug may be preferred over a generic drug. If there is no generic available, there may be more than one brand name drug to treat a condition.

Step Therapy

Some drugs listed on the Oklahoma Complete Health PDL may require that you try other medications first. This is called *step therapy*. If Oklahoma Complete Health has a record that you tried other medication first, then your step therapy drug will be approved. If Oklahoma Complete Health does not have a record that you tried other medication first, then you or your provider will need to tell us why you need the step therapy drug instead of trying other medications. If we do not approve the step therapy drug, we will tell you and your provider. We will also tell you how to file an appeal if you do not agree with our decision.

If you need an attendant to go with you to your doctor's appointment, or if your child (18 years old or younger) is a member of the plan, the transportation is also covered for the attendant or parent or guardian. Non-emergency transportation includes personal vehicles, taxis, vans, ambulatory vehicles, and public transportation.

How to get non-emergency transportation. Oklahoma Complete Health has a contract with ModivCare to provide non-emergency ride services to covered members. This is called the Non-Emergency Medical Transportation (NEMT) Program. You are covered under NEMT. This means that we will offer you transportation services to get to your Medicaid appointments. We work with a group of transportation providers to help meet your transportation needs.

You can call ModivCare's transportation services at **1-877-718-4212** to make a reservation. Reservations require up to 72 hours before your appointment, excluding weekends and state holidays, to arrange transportation to and from your appointment. After hours you can get medical transportation by dialing the same toll-free number used during normal business hours.

Non-emergency transportation is covered for medically necessary, covered services, such as medical appointments, dialysis, and counselling appointments. If you need to change or cancel your transportation

services, please call **1-877-718-4212** as soon as you know that you need to change or cancel your pickup time. If the transportation does not show at the appointment time, please call transportation services at **1-877-718-4212** to get the location of the driver or make other arrangements.

What do I need to get a ride?

Please have the following information ready when you call:

- Your name, home address, and phone number.

Standing Order (Recurring) Trip Requests

Members may schedule for more than 30 days in advance for the following conditions or services (including but not limited to):

- Dialysis.
- Radiation treatment.
- Chemotherapy.

For questions regarding standing order (recurring) trip requests, please call transportation services at **1-877-718-4212**.

Depending on the circumstances, not cancelling a trip or cancelling less than 24 hours in advance may result in a no-show. Repeated no-shows may result in suspension from transportation services.

Under certain circumstances, such as overnight stays, very early travel, or late returns, you may be able to get meal or lodging reimbursement. This means we will pay you back for any money you spend. To find out more and to request prior authorization for reimbursement, please call transportation services at **1-877-718-4212**.

- Medical services provided out of the country; or
- Tattoo removal.

This list does not include all the services that are not covered. To determine if a service is not covered, call Member Services at **1-833-752-1664** (TTY: **711**).

You may have to pay for any service that your PCP or Oklahoma Complete Health does not approve.

This includes:

- Services not covered (including those listed above);
- Unauthorized services; and

- Services provided by providers who are not part of Oklahoma Complete Health.

Oklahoma Complete Health can choose not to cover counseling or referral services because of an objection on moral or religious grounds. Currently, Oklahoma Complete Health does not object to any services based on moral or religious grounds. If this changes in the future, and if you want to leave our plan because of this objection, you have good cause and the right to do so. See page 53 for more information.

If You Get a Bill

In most cases, you do not have to pay for SoonerSelect services and should not get a bill from a provider. You may have to pay if you agreed in writing to pay for services not paid for by Oklahoma Complete Health SoonerSelect Program. If you get a bill for a treatment or service you do not think you should pay for, do not ignore it. Call Member Services at **1-833-752-1664** (TTY: **711**) right away. We can help you understand why you may have gotten a bill. If you are not responsible for payment, Oklahoma Complete Health will contact the provider and help fix the problem for you.

You have the right to file an appeal if you think you are being asked to pay for something Oklahoma Complete Health should cover. See the grievance and appeals section on page 46 in this handbook for more information. If you have any questions, call Member Services at **1-833-752-1664** (TTY: **711**).

New Technology

Oklahoma Complete Health wants to make sure you have access to the most up-to-date medical care. We have a team that watches for advances in medicine. This may include new medicine, tests, surgeries, or other treatment options. The team checks to make sure the new treatments are safe. We will tell you and your doctor about new services covered under your benefits.

PART III: PLAN PROCEDURES

Pharmacy Lock-in Program

To protect the health of our members, Oklahoma Complete Health has a pharmacy lock-in program. This is for members who abuse or misuse prescription drugs. Members are assigned to one pharmacy and one doctor. You may change your doctor or pharmacy one time a year unless you have a special situation like moving. If you are placed in the program, you may be enrolled for a minimum of two years. We will review your enrollment at least every year. You can appeal being placed in the lock-in program. See the grievance and appeals section on page 46 in this handbook for more information.

Prior Authorization and Actions

Oklahoma Complete Health will need to approve some treatments and services before you receive them. Oklahoma Complete Health may also need to approve some treatments or services for you to continue receiving them. This is called prior authorization. For a list of services that require a prior authorization, please see the chart in the “Services Covered by Oklahoma Complete Health’s Network” section of this handbook on page 15.

Typically, your primary care provider (PCP) will submit the prior authorization to Oklahoma Complete Health for you through the provider portal. Asking for approval of a treatment or service is called a prior-authorization request. To get approval for these treatments or services you need to:

- You or your doctor may call Member Services at **1-833-752-1664** (TTY: **711**) to ask about prior authorization. However, all official prior authorization submissions must be done via our provider portal.

Prior Authorization Requests for Children Under Age 21

Special rules apply to decisions to approve medical services for children under age 21 receiving Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) services. To learn more about EPSDT services, see page 38 or visit our website at **OklahomaCompleteHealth.com**.

What Happens After We Get Your Prior-Authorization Request?

The health plan has a review team to be sure you get the services we promise and that you need. Qualified health care professionals (such as doctors and nurses) are on the review team. Their job is to be sure that the treatment or service you asked for is covered by your plan and that it will help with your medical condition. They do this by checking your treatment plan against medically acceptable standards.

After we get your request, we will review it under either a standard or an expedited (faster) process. You or your doctor can ask for an expedited review if a delay will cause serious harm to your health. If your request for an expedited review is denied, we will tell you and your case will be handled under the standard review process. In all cases, we will review your request as fast as your medical condition requires us to do so but no later than described timeframes noted within the next section of this handbook.

We will tell you and your provider in writing if your request is approved or denied. We will also tell you the reason for the decision. We will explain what options you will have for an appeal when you don't agree with our decision.

Any decision to deny a prior authorization request or to approve it for an amount that is less than requested is called an adverse benefit determination. These decisions will be made by a health care professional. You can request the specific medical standards, called clinical review criteria, used to make the decision for adverse benefit determinations related to medical necessity.

Prior Authorization and Timeframes

We will review your request for a prior authorization within the following timeframes:

- **Standard review:** We will make a decision about your request within 72 hours after we receive it.
- **Expedited (fast track) review:** We will decide about your request and you will hear from us within 24 hours.
- **Inpatient Behavioral Health:** We will make a decision about your request within 24 hours.

If additional information is needed to make the decision, the review could take up to an additional 14 days. If this happens, Oklahoma Complete Health will send you a written notice along with information on how to file an appeal on the extension.

In most cases, if you are receiving a service and a new request is made to keep receiving a service, we must tell you at least 10 days before we change the service if we decide to reduce, stop, or restrict the service.

If we approve a service and you have started to receive that service, we will not reduce, stop, or restrict the service during the approval period unless we determine the approval was based on information that was known to be false or wrong.

If we deny payment for a service, we will send a notice to you and your provider the day the payment is denied. These notices are not bills.

Utilization Review

The Oklahoma Complete Health Utilization Review Program reviews services to ensure the care you get will be the best way to help your medical condition. This includes reviewing your medical notes and talking with your doctor, hospital, or other care providers. There are different types of utilization review methods and timeframes for decisions and notifications. UM procedures may include, but are not limited to:

- Preservice review (before you receive the service).
- Urgent concurrent review (while you are receiving the service).
- Postservice review (after you have received the services).

How You Can Help with Plan Policies

We value your ideas. You can help us develop policies that best serve our members. Maybe you would like to work with one of the member committees in our health plan or with OHCA, like:

- Oklahoma Complete Health Advisory Board; and/or
- Oklahoma Complete Health Behavioral Health Advisory Board (BHAB).

Call Member Services at **1-833-752-1664** (TTY: **711**) to learn more about how you can help.

Fax: **1-888-865-6531**

To file an appeal by phone, call Member Services at **1-833-752-1664** (TTY: **711**).

If you are not satisfied with an action we took or what we decided about your prior-authorization request (PA) (see page 44 about prior authorizations and actions), you can file an appeal at any time. An appeal is a request for us to review the decision. You have 60 days after we send you a denial notice (adverse benefit determination notice) to file an appeal.

You can do this yourself or, with your written consent, your authorized representative or your provider can call Member Services at **1-833-752-1664** (TTY: **711**) or visit our website at **OklahomaCompleteHealth.com** if you need help filing an appeal.

The appeal can be made by phone or in writing. You don't have to use any specific or legal terms, as long as you clearly state that you are dissatisfied with the decision we made. We can help you complete the appeal form. If needed, auxiliary aids and services will be provided to you upon request and free of charge.

If your appeal review needs to be reviewed more quickly than the standard timeframe because you have an immediate need for health services, you may request an expedited appeal.

- **Standard appeals:** If we have all the information we need, we will tell you our decision in writing within 30 days after your appeal is received.
- **Expedited (fast track) appeals:** If we have all the information we need, we will call you and send you a written notice of our decision within 72 hours from when we receive your appeal. We'll let you know we received your expedited appeal within 24 hours.

You may file a grievance (see page 50 for more about grievances) if your request for an expedited (fast tracked) appeal is denied.

We will not treat you any differently or act badly toward you because you file an appeal.

Before and during the appeal, you or your representative can see your case file, including medical records and any other documents and records being used to decide your case.

You can ask questions and give any information (including new medical documents from your providers) that you think will help us to approve your request. You may do that in-person, in writing, or by phone.

If you need assistance with the appeals process, have questions, or want to check the status of your appeal, you can call Member Services at **1-833-752-1664** (TTY: **711**).

More Information for Appeals

If we need more information to make either a standard or an expedited (faster) decision about your appeal, we may extend the time to resolve your appeal. If so, we will:

- Write you and tell you what information is needed. For expedited appeals, we will call you right away and send a written notice later.
- Explain why the delay is in your best interest.
- Make a decision no later than 14 days from the original decision date.

If you need more time to gather your documents and information, just ask. You, your provider, or someone you trust may ask us to delay your case until you are ready. We want to make the decision that supports your health best. You can request more time by calling Member Services at **1-833-752-1664** (TTY: **711**) or writing to:

Oklahoma Complete Health
ATTN: Appeals
P.O. Box 10353
Van Nuys, CA 91410-0353
Fax: 1-833-522-2803

Our Decision on Your Appeal

If we agree with you that we should not have reduced or stopped services you were already receiving, we will send you a notice of resolution of the appeal telling you that we granted your appeal. If we still disagree with you and believe we were right to have reduced or stopped services you were already receiving, we will send you a notice of adverse resolution of the appeal telling you that we denied your appeal. If you disagree with the adverse resolution of the appeal, you have the right to request a State Fair Hearing. See the next section on page 49 for important details about timing and filing your request.

Your Care While You Wait for a Decision on Your Appeal

When the health plan's decision reduces or stops a service you were already receiving, you can ask to continue the services your provider had already ordered while we are making a decision on your appeal. You can also ask an authorized representative to make that request for you. Providers are not allowed to ask for your services to continue for you.

While you are waiting for us to make a decision on your appeal, if you want to continue services you were already receiving, be sure to ask us to continue those services at the time you file your appeal. You must ask us to continue services within 10 days after we mail you a denial notice (adverse benefit determination notice) or before the effective date of the denial, whichever is later.

If we continue the services that you were already receiving, we will pay for those services if your appeal is decided in your favor. **Your appeal might not change the decision the health plan made about your services.**

When your appeal doesn't change the health plan's decision, the health plan may require you to pay for the services you received while waiting for a decision. If you are unhappy with the result of your appeal, you can ask for a State Fair Hearing (see next section in this handbook).

State Fair Hearings

After you receive a notice of adverse resolution to your appeal and you still don't agree with the decision we made that reduced, stopped, or restricted your services, you can ask for a State Fair Hearing. A State Fair Hearing is your opportunity to give more information and ask questions about the decision in front of an administrative law judge. The judge in your State Fair Hearing is not a part of your health plan in any way.

If you want to continue benefits while you wait for the administrative law judge's decision about your State Fair Hearing, you should say so at the time you request a State Fair Hearing. Your request to continue benefits during a hearing must be requested within 10 days after we send you an appeal decision notice (notice of adverse resolution on appeal).

If you need help with understanding the State Fair Hearing process, call Member Services at **1-833-752-1664** (TTY: **711**). You don't have to use any special legal or formal language to request a State Fair Hearing as long as you clearly state that you are dissatisfied with the decision we made.

Your Care While You Wait for a Decision on your State Fair Hearing

If you requested and received continued services during your appeal, we must continue providing those services until you do one of the following:

- You withdraw your appeal or your request for State Fair Hearing; or
- A State Fair Hearing officer issues a hearing decision that disagrees with you.

You can also ask a trusted representative to make that request for you.

If you ask your health plan to continue services you already receive during your State Fair Hearing case, the health plan will pay for those services if your case is decided in your favor. Your State Fair Hearing might not change the decision the health plan made about your services.

Requesting a State Fair Hearing

You don't have to use any special legal or formal language to request a State Fair hearing as long as you clearly state that you are dissatisfied with the decision we made.

You must first file an appeal with Oklahoma Complete Health and receive our decision before requesting a State Fair Hearing. If we don't decide your appeal within 30 days of your appeal request, you can also ask for a State Fair Hearing.

You don't need an attorney for your State Fair Hearing, but you may use one. You may represent yourself or allow someone else to represent you. If you allow someone else to represent you, they will have to show proof in writing that you asked for their help. Without this written proof, your appeal will be rejected.

You can ask for a State Fair Hearing at any time within 120 days from the day we send you notice of adverse resolution. You can use one of the following ways to request a fair hearing:

- 1** By phone: **1-405-522-7217**
- 2** By email: **docketclerk@okhca.org**
- 3** By mail: **Oklahoma Health Care Authority**

- We may extend the resolution time frame of your grievance by 14 days if we need additional time to resolve your grievance. This must be in your best interest; and
- If we extend your grievance, we will notify you within two days and mail you a written notification letter. You may also request an extension of your grievance.

Your Care When You Change Health Plans or Doctors

- If you choose to leave Oklahoma Complete Health SoonerSelect Program, we will share your health information with your new plan. You can finish receiving any services that have already been authorized by your previous health insurance or SoonerCare, even if the provider you are seeing is an out-of-network provider. Prior authorizations will be honored until the services are used or until 90 days after your new plan benefits begin, whichever comes first. After that, we will help you find a provider in our network to get any additional services if you need them.
- If you are pregnant when you join Oklahoma Complete Health SoonerSelect Program you can continue the care you were receiving before you joined our plan. You can continue seeing your doctor even if he or she is an out-of-network provider. If you are receiving chemotherapy or radiation treatment, dialysis, major organ or tissue transplant services, bariatric surgery, Synagis treatment, medications for Hepatitis C treatment or if you are terminally ill, when you change plans you can continue your current treatment plan.
- Children receiving private duty nursing services will continue to receive these services. These services will only change if we perform a new assessment and determine your child needs different services.
- We will continue to cover your out-of-state services and/or meals and lodging assistance if it is already being received from SoonerCare when you join our plan.
- If you are receiving services for hemophilia, those services will continue being provided by your current hemophilia providers for up to 90 days even if the provider is out-of-network. After 90 days, we can help you find a network provider.
- If you are on a current treatment plan and receiving behavioral health services, you may keep seeing your current behavioral health treatment provider(s) for up to 90 days, even if the provider is out-of-network. After 90 days, we can help you find a network provider.
- If you are waiting for durable medical equipment (DME) or supplies authorized and ordered prior to joining our plan, we will help you to receive these items on time.
- If your PCP leaves Oklahoma Complete Health, we will tell you in writing within 15 days from when we know about this. We will tell you how to choose a new PCP, or we will choose one for you if you do not make a choice.
- If you are on a current treatment plan and getting treatment for a chronic or acute medical condition, you may continue treatment through the current period or active treatment, or for up to 90 calendar days, whichever is less. After this period, we can help you find a network provider.
- If you are pregnant and in the second or third trimester, you may continue your care through the postpartum period which begins immediately after childbirth and extends for about six weeks. After this period, we can help you find a network provider.

If you have any questions, call Member Services at **1-833-752-1664** (TTY: **711**)

Disenrollment Options

If You Want to Leave the Plan

You can try us out for 90 days. You may leave Oklahoma Complete Health and join another health plan at any time during the first 90 days after you begin to receive health plan benefits. You don't have to have a reason to switch plans.

You can also switch health plans once every 12 months. This change happens through open enrollment.

If you want to leave Oklahoma Complete Health at any other time, you can do so only with a good reason (good cause). Some examples of good cause include:

- You need related services to be performed at the same time, not all services are available within Oklahoma Complete Health's network, and getting the services separately would put your health at risk,
- You have a complex medical condition and another health plan can better meet your needs,
- You have filed and won a grievance about poor quality of care, lack of access to services we must provide, lack of access to providers experienced in dealing with your needs, or any other issue that would support disenrollment,
- You were enrolled by mistake, and
- You need services that Oklahoma Complete Health does not provide for moral or religious reasons. For more information on services not covered for moral or religious reasons, please see the next section.

If you have a good cause reason to disenroll from Oklahoma Complete Health, you must submit your request using the grievance process on page 50. We will review the request within 10 days from when you filed the grievance. If you are unhappy with the disenrollment decision, we will refer the request to the Oklahoma Health Care Authority for the final decision.

Oklahoma Complete Health can choose not to cover certain services because of an objection on moral or religious grounds. Currently, Oklahoma Complete Health does not object to any services based on moral or religious grounds. If this changes in the future, and you want to leave our plan because of this objection, you have the right to do so. It is considered a good cause.

You Could Become Ineligible for SoonerSelect

You may have to leave Oklahoma Complete Health if you:

- Are no longer eligible for Medicaid. If you become ineligible for Medicaid, all your services may stop immediately.
- Begin receiving Medicare.
- Transition to an eligibility group that does not participate in SoonerSelect.
- Become a foster child under state custody.
- Become a juvenile in the justice system under state custody.
- Become an inmate of a public institution.
- Commit fraud or provide fraudulent information.
- Are ordered by a hearing officer or court.

We Can Ask You to Leave Oklahoma Complete Health

You can also lose your Oklahoma Complete Health membership if you:

- Abuse or harm to plan members, providers or staff.
- Were enrolled in error.
- Have a complex medical condition and another health plan can better meet your needs.
- Do not fill out forms honestly or do not give true information. This is considered fraud.

Advance Directives

There may come a time when you become unable to manage your own health care and a family member or other person close to you is making decisions on your behalf. By planning in advance, you can arrange now for your wishes to be carried out. An advance directive is a set of directions you give about the medical and mental health care you want if you ever lose the ability to make decisions for yourself. For example, some people do not want to be put on life-support machines if they go into a coma.

Making an advance directive is your choice. If you become unable to make your own decisions, and you have no advance directive, your doctor or behavioral health provider will consult with someone close to you about your care. Discussing your wishes for medical and behavioral health treatment with your family and friends now is strongly encouraged, as this will help to make sure that you get the level of treatment you want if you can no longer tell your doctor or other physical or behavioral health providers what you want. Your advance directives, no matter the type, should be given to your primary care provider (PCP) and your care manager at Oklahoma Complete Health.

Oklahoma has three ways for you to make a formal advance directive. These include living wills, health care power of attorney and advance instructions for mental health treatment.

Revocation of an Advance Directive may happen at any time by the Member, without regard to their medical or mental health, and the following:

- If the member is pregnant and the physician is aware, the pregnant patient is to be provided with life-sustaining treatment unless the patient has specifically authorized to withhold treatment during the course of pregnancy.
- If a physician is unable or unwilling to provide care as per the Advance Directive, Oklahoma Complete Health will process the information. The physician will transfer care of the patient to another physician to comply with the patient's medical decisions. If refusal of treatment would, in reasonable medical judgment, likely result in the death of the patient, then the physician **must comply** with the medical treatment decision pending transfer of the patient to a physician or other healthcare provider who is willing to comply with the decision.
- An Advance Directive from another state is valid to the extent that it does not exceed authorizations allowed under Oklahoma law. It must have been executed by the individual the directive applies to, and it must specifically authorize withholding/withdrawal of artificial nutrition/hydration and be signed.

Living Will

In Oklahoma, a living will is a legal document that tells others whether or not you want to die a natural death if you:

- Become incurably sick with an irreversible condition that will result in your death within a short period of time;
- Are unconscious and your doctor determines that it is highly unlikely that you will regain consciousness; or
- Have advanced dementia or a similar condition which results in a substantial cognitive loss and it is highly unlikely the condition will be reversed.

In a living will, you can direct your doctor not to use certain life-prolonging treatments such as a breathing machine (called a “respirator” or “ventilator”), or to stop giving you food and water through a feeding tube.

A living will go into effect only when your doctor and one other doctor determine that you meet one of the conditions specified in the living will. Discussing your wishes with family, friends, and your doctor now is strongly encouraged so that they can help make sure that you get the level of care you want at the end of your life.

Health Care Power of Attorney

A health care power of attorney is a legal document in which you can name one or more people as your health care agents to make medical and behavioral health decisions for you as you become unable to decide for yourself, for as long as you choose. You can always say what medical or behavioral health treatments you would want and not want. You should choose an adult you trust to be your health care agent. Discuss your wishes with the people you want as your agents before you put them in writing. Your designated power of attorney will be able to have access to your medical information and medical records, for as long as that person is so designated, up to your death.

Again, it is always helpful to discuss your wishes with your family, friends, and your doctor. A health care power of attorney will go into effect when a doctor states in writing that you are not able to make or to communicate your health care choices. If, due to moral or religious beliefs, you do not want a doctor to make this determination, the law provides a process for a non-physician to do it.

The Health Care Power of Attorney becomes effective when the attending physician determines that the Member is no longer able to make their own healthcare decisions, unless the Member elected to have the Agent's authority take effect upon execution of the Health Care Power of Attorney.

Advance Instruction for Mental Health Treatment

An advance instruction for mental health treatment is a legal document that tells doctors and mental health providers what mental health treatments you would want and what treatments you would not want if you later become unable to decide for yourself. It can also be used to nominate a person to serve as guardian if guardianship proceedings are started. Your advance instruction for behavioral health treatment can be a separate document or combined with a health care power of attorney or a general power of attorney. An advance instruction for behavioral health may be followed by a doctor or behavioral health provider when your doctor or an eligible psychologist determines in writing that you are no longer able to make or communicate behavioral health decisions.

You can change your mind and these documents at any time. We can help you understand or get these documents. They do not change your right to quality health care benefits. The only purpose is to let others know what you want if you can't speak for yourself. Talk to your primary care provider (PCP) or call Member Services at **1-833-752-1664** (TTY: **711**) if you have any questions about advance directives.
